Report of event/ activity

Event: Fire Safety Awareness Program

Cyber Security as a major man-made disaster of the current era and KJSCE would like to take our share of contributing back to our society by extending the technical help. Cyber Security involves protection of sensitive personal and business information through prevention, detection and response to different online attacks. Mumbai being the most densely populated and the financial capital of India is very vulnerable to man-made disaster. The recent incident at Saki Naka Farsan factory and Kamala Mills fire have shaken up the very foundation of disaster resilience. The program was presided by the Principal Dr Mrs Shubha Pandit of K J Somaiya College of Engineering, Mumbai and the chief guest being Shri V. Ranganathan Hon. Secretary Somaiya College Vidyavihar Mumbai and Special Invitee D.G.P Shri Sanjay Pandey, I.P.S, Director of Civil Defence and Commandant General Home guard, Maharashtra State was witness of the program.

Report of event/ activity

Event: Cyber Security Awareness Program

Cyber Security seminar was conducted to create awareness about various cyber-security crimes as a social initiative. Audience was quite enthusiastic about the technical aspect of cyber security. They were already aware of things like using email, software and other social networking sites. They asked several questions regarding how to keep privacy on social media. The event was a success and all the attendees were keenly listening to the presentation given by the Outreach team. They were happy to gain the knowledge and were pretty pleased by our initiative. They were interested to have one more seminar with same subject for their family members who couldn't attend. They also asked questions regarding the precautions that should be taken while doing online transactions and online buying and selling apps and using social media (i.e Amazon, Flipkart , OLX, Facebook).
