OVERVIEW OF THE YEAR

The academic year 2018-19 has been yet another great year for our team. This year we were really able to expand our team and focus on improving our dancing skills and innovating new themes in our performances.

The year started off with an ecstatic performance at the KJSCE Freshers' Eve 2019. Our potential really grew there and we introduced our team to all the freshers' and made a great statement. It was also a display of what we do best and an appeal to join the team.

We were really honoured to have an opportunity for all our dear teachers at Teachers' Day celebrations 2019. It was the perfect occasion for us to show them our appreciation and also for us to incorporate a new theme in our dance. We are happy that our experiment was liked and appreciated by all.

Auditions for team recruitment were held within a week after the Teachers' Day performance. We had a total of 13 entries of which 7 were selected based on their command on the dance style and also their ability to grasp information within a short amount of time. We are pleased to say that the team has drastically strengthened in terms of creativity, unity and most important, Team Work!!!

We tried our best to reach out to many people outside this institute through our Dance videos on Youtube, and also through social media. We are happy that our efforts are appreciated by many and we are blessed to have had received such great response by all.

February 9, the day we all had been waiting for so eagerly. It was indeed, SYMPHONY 2019, our largest audience for whom we put together a unique mix of modern beats and powerful moves. Being the biggest event we performed at, the new team was very pleased with their performance and this bounded us together even more. We would like to thank everyone who cheered us up all along the performance.

We displayed women power as our FYs and SYs set the stage on fire at NAARi 2019 and we were able to gain confidence in ourselves and in each other. Mistakes do happen but the show must go on! We encountered many challenges in the beginning but just walked over them with grace and will power.

We hope to continue with the same enthusiasm rolling into the next year as well. But till then our focus is to represent this institute at higher levels. We hope we could start with that being a very strong team.
